

Call for Posters

The *Progress Through Partnership National Autism Conference* is scheduled for August 4–8, 2008. The conference program committee is organizing poster session opportunities to highlight effective practices used by intermediate units, school districts, and other agencies when programming for students with autism spectrum disorders. These could include, but are not limited to, teaching techniques and strategies, a visual display of autism-related research projects, service delivery systems, or staff development framework.

We welcome a variety of projects and invite you to take advantage of this opportunity to showcase some of your research-based effective practices.

The poster sessions will be held on Friday, August 8 from 9:00–10:30 a.m.

If you are interested in submitting a poster for display during the *Progress Through Partnership National Autism Conference*, fill out the poster presentation application form below and submit your application by e-mail by June 2, 2008. Applicants whose presentations are accepted will receive poster guidelines and additional information prior to the conference.

Return the form by e-mail to:

Nancy Eckard, Conference Planner
